## Information about California Use Tax Reporting

You may owe California "Use Tax" on purchases you made out-of-state or via Internet sellers. The requirement to report "Use Tax" on Form 540 has been in effect since 2003 and is now being closely monitored for compliance.

### What is "Use Tax"?

"Use Tax" is similar to sales tax paid on purchases made in California. It covers purchases made out-of-state that are brought into California to use, store, give-away or consume; and the seller did not collect the appropriate California sales tax. Purchases made by telephone, internet, mail order, or in person fall under these reporting rules. Vehicles are excluded since registration and collection of "Use Tax" is handled by DMV.

### Who is liable?

Individuals who do not hold a seller's permit must report "Use Tax" on California Form 540 in lieu of filing with the California Department of Tax and Fee Administration.

### How to report and pay?

You may use either the "Use Tax Worksheet" or "Use Tax Table". The "Use Tax Table" may be used to pay estimated use tax for personal items purchased for less than \$1,000 each. This enables you to report "Use Tax" based on your CA income and not keep receipts for purchases under the threshold.

For personal items purchased for more than \$1,000 each, you must use the "Use Tax Worksheet". This requires actual receipts for each purchase.
