Affordable Care Act ("ObamaCare") Worksheet

As a result of the Affordable Care Act (ACA), most Americans are required to have health insurance, and report an explanation of coverage on their income tax returns. This requirement added several new forms to most tax returns, and may increase the amount of time required to prepare those returns.

The Affordable Care Act forms you may receive:

If you had health insurance you must provide us one of the following 1095 forms. We cannot file your tax return without this form.

Form 1095-A
Health Insurance Marketplace Statement

If you or a dependent were covered by a health insurance policy purchased on a Federal or State marketplace/exchange, you will be sent form **1095-A** as evidence of coverage.

Forms 1095-B and 1095-C
Health Coverage / Employer-Provided Health Insurance Offer and Coverage

For 2016 you will receive one of these forms if you or a dependent were covered under a health insurance policy provided by your employer, or purchased directly or through an insurance agent.

Worksheet Directions

Please provide information about the health insurance coverage for Taxpayer, Spouse, and any Dependents. In the chart below, enter the appropriate letter for each individual. If coverage was the same for all 12 months of the year, enter the appropriate letter only in the "All 12 Mo" column. Otherwise, indicate coverage for each month separately.
